*Elsewhere* is a group exhibition inviting 5 artists to create work inspired by the notion of elsewhere. Not prescriptive in approach, this exhibition allows the artists to use the following themes as a starting point; parallel worlds, alternate realities, constructed worlds, the artificial, the historical, chaos, altered consciousness, imagination and fantasy, technologies, current polarities in cultural politics and the construction of dynamic spaces.

This exhibition explores different spaces and places represented in contemporary visual art. Utilising differing mediums (sculpture, painting, drawing and photography) this exhibition acts as an exemplar of how contemporary society unravels and deciphers the overload of information in our present times.
